

## Camera support in Ethiris 6.4.0.2

Gray cell	Camera is not supporting
Blank cell	Camera supports, Ethiris not
✓	Ethiris + camera full support

**ONVIF**                      Ethiris has support for video and PTZ via ONVIF.  
 Kentima has not tested all the cameras in the world, but cameras with support for ONVIF Profile S will most probably be able to be connected to Ethiris.

**Generic**                    Ethiris also has support for video via RTSP.  
 This means that cameras with support for RTSP may be connected to Ethiris by selecting the type 'Generic' and then enter a so called 'URL' for receiving video from the camera.

This means that even though you don't find a specific camera model in the following list, the camera will most likely be able to be connected anyway via ONVIF or RTSP.

Manufacturer	Model	Pixels	MJPEG	MPEG4	H264	PTZ	I/O
